THURSDAY MARCH 18 from 6:00 - 8:00pm

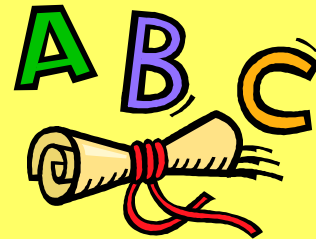

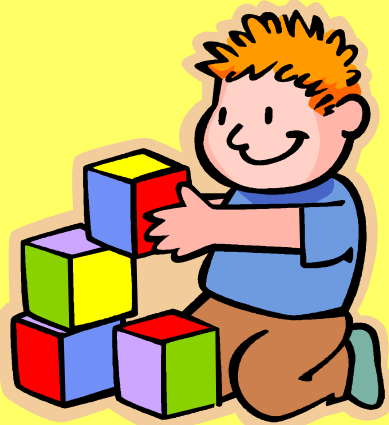

Further Information

Contact : Lila Siewert at 274-6682 or via email at lilas@telusplanet.net

North Haven Preschool

Our Philosophy

Kids should be kids and have a chance to fully enjoy this time of creative exploration, new friends and new adventures. North Haven Playschool is a community based playschool committed to helping young children develop social skills, share new experiences and make new friends.

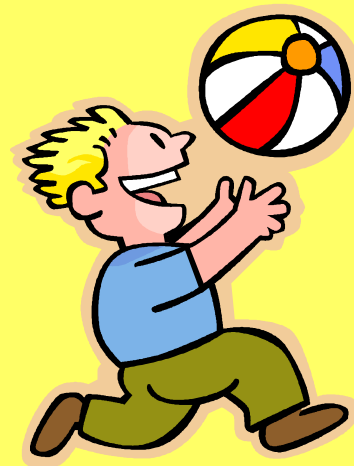

Playschool Learning

North Haven Playschool is a safe and inviting environment to explore new friendships and activities. We encourage each child to participate at his or her own comfort level. North Haven Playschool is play based. Children learn many things while they enjoy themselves in play. While at play children are enhancing their motor skills, literacy, co-ordination, problem solving and social and emotional skills. The staff and volunteers will encourage and challenge your child when they play, letting them try new things and above all allowing them to have fun.

Getting Involved

Parent volunteers are a vital part of our program.

Parents are expected to volunteer at least two mornings per session. We depend on you to help us create a relaxed and fun experience for the children. We encourage you to participate in your child's development, joys, and new found self-confidence. We value a sense of community and family - a place where we all belong.

North Haven Preschool Playhouse

Daily Routine

Our day begins with unstructured play time. The children are free to move between two rooms where a variety of toys, games and activities await them.

Circle time and story time is a structured time for singing, dancing, sharing experiences and learning.

Snack time is a social gathering where we sit down as a group and enjoy each others company. We encourage healthy snacks so that young bodies have energy and grow healthy and strong.

Craft time is a structured time with open ended art experiences. The children are encouraged to express their creativity and have fun.

Gym time is an opportunity for the children to enhance their motor and cognitive skills.

Field Trips and Visitors

The 3 year old class start field trips after the Christmas break while the 4 year old class go on field trips throughout the session. Field trips have been taken to places like: Butterfield Acres, The Science Centre and the Inglewood Bird Sanctuary. The 4 year olds also have an ECS orientation at North Haven Elementary School in late spring.

We have special visitors come to the playschool to share fun and to provide learning experiences. Visitors have included Policemen, Firemen, Dentists and Musicians. Parents if you would like to share your work or personal experiences with the class please speak with one of the teachers.
